EIGHT NO. DIXON BOY VANDALS IN SERIOUS TROUBLE

Depredations at Loveland School Bldg. Their Work.

Damage to the Loveland school to the extent of several hundred dollars, the work of a gang of boys ranging in age from eight to 13 years, has been disclosed following an investigation by the Board of Education. The investigation was begun yesterday morning under the direction of Chief Van Bibber but the findings were not made public until this morning when all of the guilty boys were gathered together in one of the rooms of the building with their parents and members of the board.

People residing near the school reported today that the school has been open for several days, the doors being unlocked. The vandalism started Tuesday afternoon of this week, it was established at the investigation this morning, when Clarence Howell, Henry and John Rupert went into the building and committed certain depredations. Again on Wednesday afternoon, these boys together with Vernon Rogers, Paul Mueller, Carl and Robert Koestner and Carl Eicks, again entered the building and committed the acts that brought on the investigation.

No effort was spared in bringing about the most destruction to the school property. A large metal register at the front entrance was torn from the floor; the hard maple floors were covered with sand; the fire extinguishers were torn from the walls and their contents emptied on the floors; desks were littered with papers and the contents of teachers' desks were strewn about over the floors; some of the boys carried stones into the building and threw them against the blackboards, leaving large holes in them; a bucket of tar was smeared about on the floor, blackboards and baluster rail leading from the ground to the second floor; ink was spilled about on the desks and floors and two large cans of paste were emptied, the contents being thrown on the desks, walls, chandeliers, grappa phone and pictures that adorned the walls; furniture and other school equipment was scattered about the rooms and halls of the building in addition to other depredations.

Through the efforts of Chief Van Bibber and M. C. Monahan, janitor of the north side schools the boys were rounded up and this morning, many of them with their parents, they faced Chairman Henry S. Dixon and Secretary F. K. Tribou of the board of education, where they told their stories. Considerable credit is due to both the chief and Mr. Monahan in apprehending the vandals in so short a time.

Every piece of furniture and equipment in the building had been rifled and the contents strewn about on the

IMPRESSIVE SCENE WAS SIGNING OF SECOND PEACE PACT OF VERSAILLES

By Associated Press Leased Wire
Versailles, Friday, June 27.—(Delayed)—The treaty of peace with Germany will be signed at 3 o'clock tomorrow afternoon in the historic hall of mirrors under the watchful eyes of 45 stalwart American doughboys, French poilus and British Tommies, the real "artisans of the peace" which has been slowly taking definite form during the long months of the Paris conference.

Generals Privileged Guests.
Marshals and generals of the allied armies will take the first places on the benches provided for privileged guests invited to the ceremony, but the fifteen privates from each of the principal armies will stand within the enclosure reserved for the plenipotentiaries and high officials of the conference as the visible sign of their role in bringing into being a new Europe.

Germany Has Ratified.
The soldiers will stand in the embrasures of the windows overlooking the chateau park a few feet from their commander-in-chief, Marshal Foch, who will be seated with the French delegation at the peace table. A second change in the program has been introduced as a result of the attitude taken by the German government press and pulpits toward the execution and binding validity of the treaty. The German plenipotentiaries instead of being regarded from the moment of signature as representatives of a formerly friendly power with which diplomatic relations had been renewed will leave the hall after the signature separately by the door through which they entered, not joining the general procession of

TWO INJURED IN AUTO ACCIDENT WEST OF DIXON

Employees of Gund & Graham Victims of Mishap.

Four employees of the Gund & Graham contracting firm of Freeport, now working on the street improvements in Dixon, figured in an automobile accident on the Rock Island road west of the M. H. Scholl farm last evening about 9 o'clock. The party were returning to Dixon from Harmon in a Ford delivery truck and according to the driver, the machine ran into a rut at one side of the road and overturned as he attempted to steer it back onto the road.

William Haines was probably the worst injured of the four occupants. He sustained two broken ribs and a fracture of the collar bone. Cornelius Yde received a painful abrasion of the knee cap and both were taken to the hospital where their injuries were dressed. The other two occupants of the car escaped with minor cuts and bruises.

Later in the night another car backed into the ditch near the Scholl farm but none of the occupants were hurt and the machine was not damaged.

JUDGES FIFTEENTH DISTRICT VERY BUSY

The judges in the fifteenth judicial circuit are busy at this time as they now have open a term of court in every county of the five in the district. In Lee and Jo Daviess county special grand juries have been summoned, in Dixon the grand jury will investigate the charges made against the superintendent of the county home while at Galena, they will investigate the recent murder. In Ogle, Carroll and Stephenson counties courts are in session and the judges are having a busy time. It was stated today that this is the first time in the history of the circuit that court has been in session in all of the counties at the same time.

delegates to the terrace of the chateau to watch the playing of the great fountain of Versailles. For them peace will be regarded as concluded from the moment of German ratification since the German government has announced that it will sign the treaty only under protest and German political leaders have declared their intention to work to undermine the provisions of the treaty.

Work on Sitting Hurried.
All day long today workmen and officials were busy in the chateau putting the finishing touches to the arrangements but the hall of mirrors is not yet ready. Much remains to be done which will probably be completed only at the last moment. The peace table—a huge hollow rectangle with its open side facing the windows in the hall—is, however, in place, its tawny yellow coverings blending with the rich browns, blues and yellows of the antique hangings of the room and the rugs covering the dais. The mellow tints of the historical paintings on the arched roof of the long hall complete the picture and were much appreciated by those who visited the hall of mirrors this afternoon.

Ceremony Not Long.
The ceremony of signing the treaty will be shorter than expected as most of the 72 plenipotentiaries will have to write their names only twice, once on the treaty and once on the protocol containing changes and interpretations of the parent instrument. The convention covering the left bank of the Rhine and the treaties regarding the protection of minorities in Poland will

MANY INQUIRIES CONCERNING RIDE IN DIGGINS PLANE

Aviator Will Have Many Passengers Here Next Tuesday.

Friday evening's Telegraph contained the announcement that Lt. Ralph C. Diggins, U. S. Army aviator, would take a limited number of passengers for flights over the city next Tuesday afternoon, had hardly been circulated on the streets before Charles E. Miller was besieged with requests for more information concerning the flights and demands for reservations on the passenger list.

Inasmuch as the lieutenant can take but a limited number of passengers during his stay here it now seems certain that some are bound to be disappointed—that is if all who last evening and this morning signalled their intention of making the trip do not have a change of heart before the eventful afternoon.

Accepts All Reservations.
However, since Mr. Miller has not been advised how many passengers the aviator will be able to accommodate, he is accepting all reservations conditionally upon Lt. Diggins' acceptance. It is possible that the aviator will remain here longer than at first expected if the number of passengers warrants.

The aviator, who will stop at Dixon en route to Marshalltown, Iowa, where he is to give an exhibition flight July 4th, will make the flight from Chicago to Dixon in the morning, alighting at the big field on the Barlow farm east of the city on the Franklin Grove road which he used for his flights here June 12th, and will devote the afternoon to taking those up who wish to experience a ride in an airplane and to see Dixon from above. All passengers will board the machine at the Barlow Field.

LINEMAN INJURED IN FALL THIS MORNING

F. C. Nokes received painful injuries this morning in the second accident which has befallen Illinois Northern Utilities company linemen this week, the first being the tragic mishap of Tuesday morning in which Floyd Lambert lost his life. Mr. Nokes, a member of a crew of linemen working on First street, fell from a tree near the Brown Shoe Co. plant at about 9 o'clock today and suffered a bad cut over the left eye and the fracture of his left arm.

The young man was engaged in trimming branches which interfered with the company's wires when he slipped and fell to the ground, a distance of about 20 feet. Fellow workmen hurried him to the hospital where he was given emergency attention.

W. W. Gilbert transacted business in Sycamore today.

PRESIDENT ASKS RATIFICATION IN FORM PRESENTED

Treaty is Charter for New Order Affairs in Whole World.

By Associated Press Leased Wire
Washington, June 28.—President Wilson in an address to the American people on the occasion of the signing of the peace treaty made a plea for the acceptance of the treaty and the covenant of the league of nations without change or reservation. His message, given out here by Secretary Tumulty, said:

"My fellow countrymen: The treaty of peace has been signed. If it is ratified and acted upon in full and sincere execution of its terms it will furnish the charter for a new order of affairs in the world. It is a severe treaty in the duties and penalties it imposed upon Germany, but it is severe only because great wrongs done by Germany are to be righted and repaired; it imposes nothing that Germany cannot do, and she can regain her rightful standing in the world by the prompt and honorable fulfillment of its terms.

Liberates Great Peoples.
"And it is much more than a treaty of peace with Germany. It liberates great peoples who have never before been able to find the way to liberty. It ends, once for all, an old and intolerable order under which small groups of selfish men could use the peoples of great empires to serve their ambition for power and dominion. It associates the free governments of the world in a permanent league in which they are pledged to use their united power to maintain peace by maintaining right and justice. It makes international law, supported by imperative sanctions. It does away with the right of conquest and rejects the policy of annexation and substitutes a new order under which backward nations—populations which have not yet come to political consciousness and peoples who are ready for independence, but not yet quite prepared to dispense with protection and guidance—shall no more be subjected to the domination and exploitation of a stronger nation, but shall be put under the friendly direction and afforded the helpful assistance of governments which undertake to be responsible to the opinion of mankind in the execution of their task by accepting the direction of the league of nations.

Recognizes Nationality.
It recognizes the inalienable rights of nationality, of minorities and the sanctity of religious belief and practice. It lays the basis for conventions which shall free the commercial intercourse of the world from unjust and vexatious restrictions and for every sort of international co-operation that will serve to cleanse the life of the world and facilitate its common action in beneficent service of every kind. It furnishes guarantees such as were never given or even contemplated for the fair treatment of all who labor at the daily tasks of the world.

"It is for this reason that I have spoken of it as a great charter for a new order of things. There is ground here for deep satisfaction, universal reassurance and confident hope."
"Woodrow Wilson."

LAST CHANCE TO GET IN OCCUPATION ARMY

The opportunity for young men to enlist in the U. S. army for service in France and other European countries is nearing an end, for the recruiting office at Chicago this morning notified Sgt. Moran, who is in charge of the recruiting station at Sterling, to accept no more applicants for service in Europe after midnight, July 5. Other branches of the service, however, will remain open for recruits.

Clemenceau Makes Short Address on Opening Session

By Associated Press Leased Wire
Versailles, June 28.—Premier Clemenceau in opening the session said: "The session is open. The allied and associated powers on one side and the German commission on the other side, have come to an agreement on the conditions of peace. The text has been completely drafted and the president of the conference has stated in writing that the text that is about to be signed now is identical with the 200 copies that have been delivered to the German delegation. The signatures will be given now and they amount to a solemn undertaking faithfully and loyally to execute the conditions embodied by this treaty of peace. I now invite the delegates of the German commission to sign the treaty."

WILSON WILL START HOME TONIGHT; BIDS GOODBYE TO FRANCE

Unofficial Reception is Planned When He Lands at New York City.

By Associated Press Leased Wire
Washington, D. C., June 28.—President Wilson and his party will leave Paris at 9:30 tonight for Brest, to sail for home. Secretary Tumulty was notified today.

The cable from President Wilson said "all well."

President Wilson has consented to an unofficial reception for him on his arrival in New York. A committee of citizens through Secretary Tumulty had asked they be allowed to prepare an unofficial greeting. This is the first intimation of where the president would land.

BIDS FRANCE GOOD-BYE.

By Associated Press Leased Wire
Paris, June 28.—President Wilson today on the eve of his departure from France made the following statement: "As I look back over the eventful months I have spent in France my memory is not of conferences and hard work alone, but also of innumerable acts of generosity and friendship which have made me feel how genuine the sentiment of France are towards the people of America and how fortunate I have been to be the representative of our people in the midst of a nation which knows how to show us kindness with so much charm and so much open manifestation of what is in its heart."

"Deeply happy as I am at the prospect of joining my own countrymen again, I leave France with genuine regret, my deep sympathy for her people and belief in her future confirmed; my thought enlarged by the privilege of association with her public men, conscious of more than one affectionate friendship formed, and profoundly grateful for unstinted hospitality and for countless kindnesses which have made me feel welcome and at home."

"I take the liberty of bidding France Godspeed as well as good-bye and of expressing once more my abiding interest and entire confidence in her future."
(Signed) "WOODROW WILSON."

CHINESE DELEGATION REFUSED TO SIGN PACT

BULLETIN.
(By Associated Press Leased Wire.)

Versailles, June 28.—The world war was formally ended today by the signing of the peace treaty with Germany.

The epochal meeting in the Hall of Mirrors began at 3:10 o'clock and the German delegates, the first to sign affixed their signatures at 3:13 o'clock. They were followed by the American delegates headed by President Wilson, and then by the plenipotentiaries of Great Britain, France, Italy and Japan. The representatives of the minor powers signed in alphabetical order.

China's delegates did not attend the session, declining to sign the treaty because they were not permitted to make reservations.

OFFICIAL REPORT OF SIGNING.

(By Associated Press Leased Wire.)
Versailles, June 28.—(Official report transmitted from Hall of Mirrors to the State Department.)—President Wilson and the American delegation completed signing the peace treaty at 3:14 o'clock, Paris time.

It was also signed by Dr. Herman Mueller at 3:12 and by Dr. Johannes Bell at 3:13 p. m. for the Germans.

The American delegation signed in this order: Secretary Lansing, Henry White, Colonel House and General Bliss.

SESSION CALLED AT 3:10.

(By Associated Press Leased Wire.)
Versailles, June 28.—Premier Clemenceau called the session to order at 3:10 o'clock.

The Germans entered the hall at exactly 3 o'clock. Premier Clemenceau put the direct question to the Germans whether they were willing to sign and execute loyally all the terms. The other delegates did not arise when the Germans came into the hall.

The Germans, who were the first to sign, did so at 3:13 o'clock. The American delegates came next, lead by President Wilson. The other delegations headed by the British signed after the American plenipotentiaries in the order set forth in the treaty.

General Smuts Makes Protest.

General Jan Christian Smuts, one of the delegates representing the Union of South Africa, signed the treaty under protest. He objected to certain territorial settlements, making a lengthy statement. He said that the indemnities could not be accepted without grave injuries to the industrial revival of Europe. He declared it would be to the interests of the allied powers to render the stipulations more tolerable and moderate.

Ceremony Closes at 3:49.

At 3:44 o'clock cannon began to boom, announcing the completion of the ceremony of signing. The signatures had not, however, as a matter of fact, then been completed, for at that time the smaller nations were still signing in alphabetical order. The proceedings were formally closed at 3:49 o'clock.

FRANKLIN GROVE AFFAIRS

(By J. C. COOK.)

THERE'S A REASON.

Have you noticed the broad, genial smile that Mr. Farmer wears now-a-days? These days of sun and rain and gentle breeze when all weather conditions are most favorable for crop development, when the corn shoots up ten or twelve inches, (more or less) each day. Why shouldn't he smile? And then a little later when the corn tassels whisper their secrets to the night winds and the golden grains are garnered and finally delivered to high prices, there will be more smiles until there are miles and miles of smiles.

FROM OVER THERE.

One by one the soldier boys are gathering home to the place that looks the best to them of any spot on earth. The most recent arrivals include Warren Zoeller, Arthur Kretzer, Mark Trostle, Byron Dysart and last but not least Russell Kretzer, who arrived last Tuesday evening and was met at the station by his parents and brother, Arthur. It was a joyous meeting and no doubt Russell experienced enough pleasure in his welcome home to off set many hardships of service and the long weary hours spent in hospitals. All of the boys have done their part in the great struggle.

A MERRY, BERRY TIME.

At the Roscoe L. Keith home Sunday there was quite a family reunion, enjoyed by all. The visitors were Mr. and Mrs. Virgil Kiehl, north of town, Mr. and Mrs. Fred Keith and son, Loraine from Marengo, and Mr. Keith's son-in-law, Guy Farver, wife and daughter, Viola, from south part of the county, east of Lee Center. Mr. Keith's strawberry crop was then at its very best, great luscious berries clustered thick beneath the vines of his extensive beds and as the entire company were invited to help themselves, by eventime large quantities of the fruit had been transferred into the waiting autos. The several families all came by auto and early in the evening departed for home.

NEW FARM BUILDINGS.

It is a busy time now-a-days with the Hussey Lumber Co., who are supplying quantities of building materials of all descriptions to their many customers in this vicinity. Besides the lumber and coal business here their grain elevators in Bradford township situated as they are in the heart of a rich farming community, handle large quantities of grain and coal. Over two hundred and fifty thousand bushels of grain have been received there so far this season.

Among their recent contracts for supplying building materials is one with Chas. Schafer, who has now under construction a new house, barn, granaries, cribs, and a full set of farm buildings. This is probably one of the most extensive building operations so far this

season around Franklin Grove, and the Hussey Lumber company supply all of the material.

RIGHT SENTIMENT EXPRESSED.

An editorial in the Dixon Evening Telegraph Wednesday evening, entitled, "A Sage Fourth," struck a key note and was appreciated by many persons here. A very few of course who conceive only such sentiments of the day as expressed in a fire cracker or a big noise, they still want old fashioned "fire-works." The entire world has had enough fire works during the past four years to last for all time. The boys who have been at the front have seen a plenty; only a few of the ones who have stayed at home would care to see the sky rocket and roman candle go up which would about express the quality of their patriotism.

On the Way.

Franklin Grove awaits the arrival of the big war tanks, trucks and other army equipment which is on the way somewhere and definite notice of when they will arrive here is expected soon. The encampment will be on the school house grounds and will remain for several days. This will afford a fine opportunity for all those who are not acquainted with war machinery and methods, and will afford a fine opportunity of instruction. There will be airplane service between here and Camp Grant, wireless station, carrier pigeons, army cooking and the regular routine of camp life.

A Sage Fourth in Franklin.

Franklin Grove will have a safe, sane and as Uncle Josh says, a "sanitary" Fourth. Combining the camp meeting program with the town efforts will make up a complete day of real enjoyment devoid of the big noise and fireworks kind that is fast becoming obsolete. There will be a basket dinner on the camp grounds at noon. Lots of good things to eat and everybody invited. At one o'clock there will be a band concert on the grounds. At 2:30 Bishop Thomas Nicholson of Chicago will give a patriotic address. This will be the most interesting, intellectual feature of the day's program and will be long remembered by all who hear him. Dr. Nicholson is one of the great orators of the present time, famous as a powerful leader in social and religious achievements. At three-thirty the ball game at the park; Franklin Grove vs. Polo. Then the street pageant in charge of young ladies. A prize of \$5.00 will be offered for the best float. The ladies will also give a concert. In the evening the Franklin Grove band will give a street concert.

Good Work Accomplished.

On Wednesday, June 18, 1919, Junior Peterman graduated with his class at Northwestern university and received

his diploma and degree of B. A. The exercises were very interesting. About 300 students were graduated, including 250 in the Liberal Arts. The honorary degree of Dr. of Law was conferred upon Gov. Lowden, also the degree of Dr. of Letters upon Comstock. Four years ago in September, having finished in the F. G. H. S., Junior Peterman entered the university at Evanston.

Kindly Remembered.

A most delightful surprise was afforded Miss Iva Minor last Monday evening at the home of Mr. Fred Kecker, where she is temporarily residing during the absence of the family who are visiting in Iowa. The party was so nicely planned that it was a genuine surprise and a very agreeable one all around, affording a nice social time for all. The first few arrivals did not cause any suspicion but when others in groups of two and three kept coming at regular intervals, Miss Minor concluded there must be some conspiracy in their methods and then as if by magic the ice cream, cake, etc., appeared, "they" was "confined." The presence of Mrs. F. A. Graham, wife of the former Methodist pastor added very much to the social enjoyment of the evening.

VISIT SUBURBAN ACRES SUNDAY !

Tomorrow while you are taking your Sunday drive, we extend to you a cordial invitation to visit SUBURBAN ACRES. Drive over the new streets and make a thorough inspection of this handsome property. You will be surprised at the changes that have been made. If you are on the market for a Small Farm, "right in town," a little chicken ranch, or nice suburban home, with enough ground to grow truck for your own use and for the market, where you can keep a cow and raise a pig or two, and where you are within five minutes' walk to the depot and street car line, and still be just outside the city limits and exempt from city taxes, don't overlook SUBURBAN ACRES. If you have no automobile or other conveyance of your own and desire to look this property over, just step to the phone and call 317 and we will send our Free Automobile to your home to take you and your family to see SUBURBAN ACRES. This will in no way obligate you to buy and we assure you our salesmen will not bore you, but will show you every courtesy. Buy if you like, but see this beautiful property.

LOCATION: This is the E. C. Parsons Hillcrest Farm. It almost adjoins the Dixon, Illinois city limits on the south. It is located one block west and three blocks south of the Northwestern railroad depot, where the city street car line terminates. It lies on College avenue and extends west to Lincoln avenue and south to the Interstate road, Lincoln and College avenues both being hard-surfaced roads. The city water mains reach to within one block of this handsome property and electric light and telephone service are near at hand. This land is practically all level, the soil is of a very high grade and the drainage is perfect. It lies within two blocks of Gossard Corset factory, just two blocks from American Wagon Co.'s plant and within easy walking distance of any of Dixon's factories.

Because of the enormous demand for small Farms, brought about by a realization of the fact that the small Farm is the only way to defeat the high cost of living, we have subdivided the E. C. Parsons farm, one of the finest, best located and most valuable farms in this community, into small tracts ranging in size from ONE to SIX ACRES. This subdivision will hereafter be known as SUBURBAN ACRES and these small Farms will be offered for sale for a FEW DAYS ONLY at

PRICED FROM \$100 TO \$400 PER ACRE

Terms as follows:

One-acre Farms	\$25 cash and \$10 per month
Two-acre Farms	\$50 cash and \$15 per month
Three-acre Farms	\$50 cash and \$20 per month
Five and Six-acre Farms	\$100 cash and \$25 per month

No taxes to pay until 1921. No interest for one year, after which the unpaid balance will draw 6 per cent interest. 10% discount will be allowed for cash in full at time of purchase. If you prefer, payments may be made quarterly, semi-annually or yearly.

Come Sunday

For the benefit of those who work all through the week and can't come at any other time, salesmen will be on the grounds ALL DAY SUNDAY to show the lots.

City Lots at Sacrifice Prices

We also offer for sale 6 lots in Hillcrest Addition, 12 lots in Dement's Addition and 38 lots in Parson's Industrial Addition. These lots are all located in the southwest part of Dixon and have heretofore been held at \$200 to \$400 per lot. We are offering them for a few days only at prices ranging from \$75 to \$300 on terms of \$10 cash and \$6 per month. No taxes. No interest. 10% discount for cash. If you want a real bargain in a fine building lot see us at once. FIRST COME, FIRST SERVED.

Free Transportation.

If you will phone 317, we will send our Free Automobile to your home or office, anywhere, any time to take you and your family to see these beautiful lots. Do so today.

MAKE YOUR SELECTIONS EARLY!

Don't deceive yourself by thinking you can wait and buy one of these small Farms later. They'll go in a flash, so if you are interested, act now. Remember, also, that present prices and terms are guaranteed from day to day only.

SANDRA THE JEALOUS

By JANE PHELPS.

CHAPTER VI.

Rose Grandon cried when I told her I was going to marry Everett. And she too said something about "playing second fiddle" and about a man "always loving the first wife best," and a lot of things like that, not a bit calculated to make me comfortable, let alone happy.

Then Rose cried some more because she would be so lonesome without me. I told her she should come and visit Everett and me, and that I would find her a husband so she could live near me. That comforted her a little, especially when I said that of course we would live right next door to each other.

"However will your father and mother get along without you?" she asked. "It will be awful to have just boys in the house."

"Oh, they'll visit us a lot too. Then I shall come home ever so often." I had all sorts of faith in the idea that a married woman could do as she pleased. I would be able to invite people whenever I wished. It was only one of the many things I had to learn; that even being married doesn't allow one to do as they want to do—not always.

"Perhaps he, Mr. Graham, won't let you do as you want to," Rose's voice held a doubt. "He may not like company—young company." She waited a minute. "He may have older friends of his own he'd rather entertain."

"I guess he will come pretty near letting me do as I want to. He's crazy to marry me."

"Yes—why shouldn't he be? A nice young girl like you. But he may not be so crazy to give you your own way—not after he is sure of you. Honest Sandra, I don't think I could marry a widower. The ghost of his first wife would haunt me. I should be everlastingly thinking he cared more for her, and if I loved him it would drive me crazy. No Sandra, you are welcome to your rich old man."

I have a notion that a young girl with its leaves uncut. A man takes her with a thrill of possession; but just what is in her he does not know. It may be she will be interesting and able to hold his interest once it is aroused. Or it may be that each page as it is perused grows harder to read, his thoughts wander, and will not concentrate because of the lack of action, or because of the wonderful sameness.

I was a little frightened, a little anxious, but also a bit eager for this unknown life opening before me.

To be continued.

FRANKLIN GROVE AFFAIRS

(By J. C. COOK.)

THERE'S A REASON.

Have you noticed the broad, genial smile that Mr. Farmer wears now-a-days? These days of sun and rain and gentle breeze when all weather conditions are most favorable for crop development, when the corn shoots up ten or twelve inches, (more or less) each day. Why shouldn't he smile? And then a little later when the corn tassels whisper their secrets to the night winds and the golden grains are garnered and finally delivered to high prices, there will be more smiles until there are miles and miles of smiles.

FROM OVER THERE.

One by one the soldier boys are gathering home, to the place that looks the best to them of any spot on earth. The most recent arrivals include Warren Zoeller, Arthur Krietzer, Mark Trostle, Byron Dysart and last but not least Russell Krietzer, who arrived last Tuesday evening and was met at the station by his parents and brother, Arthur. It was a joyous meeting and no doubt Russell experienced enough pleasure in his welcome home to off set many hardships of service and the long weary hours spent in hospitals. All of the boys have done their part in the great struggle.

A MERRY, BERRY TIME.

At the Roscoe L. Keith home Sunday there was quite a family reunion, enjoyed by all. The visitors were Mr. and Mrs. Virgil Kleth, north of town, Mr. and Mrs. Fred Keith and son, Loraine from Marengo, and Mr. Keith's son-in-law, Guy Farver, wife and daughter, Viola, from south part of the county, east of Lee Center. Mr. Keith's strawberry crop was then at its very best, great luscious berries clustered thick beneath the vines of his extensive beds and as the entire company were invited to help themselves, by eventime large quantities of the fruit had been transferred into the waiting autos. The several families all came by auto and early in the evening departed for home.

NEW FARM BUILDINGS.

It is a busy time now-a-days with the Hussey Lumber Co., who are supplying quantities of building materials of all descriptions to their many customers in this vicinity. Besides the lumber and coal business here their grain elevators in Bradford township situated as they are in the heart of a rich farming community, handle large quantities of grain and coal. Over two hundred and fifty thousand bushels of grain have been received there so far this season.

Among their recent contracts for supplying building materials is one with Chas. Schafer, who has now under construction a new house, barn, granaries, cribs, and a full set of farm buildings. This is probably one of the most extensive building operations so far this

season around Franklin Grove, and the Hussey Lumber company supply all of the material.

RIGHT SENTIMENT EXPRESSED.

An editorial in the Dixon Evening Telegraph Wednesday evening, entitled, "A Sage Fourth," struck a key note and was appreciated by many persons here. A very few of course who conceive only such sentiments of the day as expressed in a fire cracker or a big noise, they still want old fashioned "fire works." The entire world has had enough fire works during the past four years to last for all time. The boys who have been at the front have seen a plenty; only a few of the ones who have stayed at home would care to see the sky rocket and roman candle go up which would about express the quality of their patriotism.

On the Way.

Franklin Grove awaits the arrival of the big war tanks, trucks and other army equipment which is on the way somewhere and definite notice of when they will arrive here is expected soon. The encampment will be on the school house grounds and will remain for several days. This will afford a fine opportunity for all those who are not acquainted with war machinery and methods, and will afford a fine opportunity of instruction. There will be airplane service between here and Camp Grant, wireless station, carrier pigeons, army cooking and the regular routine of camp life.

A Sage Fourth in Franklin.

Franklin Grove will have a safe, sane and as Uncle Josh says, a "sanitary" Fourth. Combining the camp meeting program with the town efforts will make up a complete day of real enjoyment devoid of the big noise and fireworks kind that is fast becoming obsolete. There will be a basket dinner on the camp grounds at noon. Lots of good things to eat and everybody invited. At one o'clock there will be a band concert on the grounds. At 2:30 Bishop Thomas Nicholson of Chicago will give a patriotic address. This will be the most interesting, intellectual feature of the day's program and will be long remembered by all who hear him. Dr. Nicholson is one of the great orators of the present time, famous as a powerful leader in social and religious achievements. At three-thirty the ball game at the park; Franklin Grove vs. Polo. Tomorrow while you are taking your Sunday drive, we extend to you a cordial invitation to visit SUBURBAN ACRES. Drive over the new streets and make a thorough inspection of this handsome property. You will be surprised at the changes that have been made. If you are on the market for a Small Farm, "right in town," a little chicken ranch, or nice suburban home, with enough ground to grow truck for your own use and for the market, where you can keep a cow and raise a pig or two, and where you are within five minutes' walk to the depot and street car line, and still be just outside the city limits and exempt from city taxes, don't overlook SUBURBAN ACRES. If you have no automobile or other conveyance of your own and desire to look this property over, just step to the phone and call 317 and we will send our Free Automobile to your home to take you and your family to see SUBURBAN ACRES. LOCATION: This is the E. C. Parsons Hillcrest Farm. It almost adjoins the Dixon, Illinois city limits on the south. It is located one block west and three blocks south of the Northwestern railroad depot, where the city street car line terminates. It lies on College avenue and extends west to Lincoln avenue and south to the Interstate road, Lincoln and College avenues both being hard-surfaced roads. The city water mains reach to within one block of this handsome property and electric light and telephone service are near at hand. This land is practically all level, the soil is of a very high grade and the drainage is perfect. It lies within two blocks of Gossard Corset factory, just two blocks from American Wagon Co.'s plant and within easy walking distance of any of Dixon's factories.

Because of the enormous demand for small Farms, brought about by a realization of the fact that the small Farm is the only way to defeat the high cost of living, we have subdivided the E. C. SANDRA THE JEALOUS

By JANE PHELPS.

CHAPTER VI.

Rose Grandon cried when I told her I was going to marry Everett. And she too said something about "playing second fiddle" and about a man "always loving the first wife best," and a lot of things like that, not a bit calculated to make me comfortable, let alone happy.

Then Rose cried some more because she would be so lonesome without me. I told her she should come and visit Everett and me, and that I would find her a husband so she could live near me. That comforted her a little, especially when I said that of course we would live right next door to each other.

"However will your father and mother get along without you?" she asked. "It will be awful to have just boys in the house."

"Oh, they'll visit us a lot too. Then I shall come home ever so often." I had all sorts of faith in the idea that a married woman could do as she pleased. I would be able to invite people whenever I wished. It was only one of the many things I had to learn; that even being married doesn't allow one to do as they want to do—not always.

"Perhaps he, Mr. Graham, won't let you do as you want to." Rose's voice held a doubt. "He may not like company—your company." She waited a minute. "He may have other friends of his own he'd rather entertain."

"I guess he will come pretty near letting me do as I want to. He's crazy 'o marry me."

"Yes—why shouldn't he be? A nice young girl like you. But he may not be so crazy to give you your own way—not after he is sure of you. Honest Sandra, I don't think I could marry a widower. The ghost of his first wife would haunt me. I should be everlastingly thinking he cared more for her, and if I loved him it would drive me crazy. No Sandra, you are welcome to your rich old man."

I have a notion that a young girl is a good deal like a book with its leaves uncut. A man takes her with a thrill of possession; but just what is in her he does not know. It may be she will be interesting and able to hold his interest once it is aroused. Or it may be that each page as it is poured grows harder to read, his thoughts wander, and will not concentrate because of the lack of action, or because of the wonderful sameness

in the story. Women, young women especially, are so anxious to be everything all at once that they leave no page unturned, nothing fresh and new with which to stir a jaded appetite.

Then too I had no conception that there were men to whom a woman with a woman's heart and mind, a woman's feelings and desires, were more attractive than any young girl immature, and uninteresting, could possibly be. Women who had been broadened by experience, who had lived, and who knew how to make of themselves ideal companions to a man of the world, and who possessed brains.

The young girl never is satisfied with what a man can give her of himself, even the it may be all he has to give. She must needs dig deeply into his past, worry and annoy him with questions as to what he did, and what he did not do before she knew him. When if she would take him for what he was, let his past be his past, and try to take all the present good he brings her, she might be very happy instead of—as is often the case—being utterly miserable.

But I have learned all this. Learned it by an experience that has moved me to tell my story to others. Whatever mistakes I have made have been honest mistakes, yet they were mistakes all the same.

Everett left Lakeville the day after he gave me my ring. He wasn't coming again until he came for me in October. We were to be married the tenth. Mother tried to have me wait until spring. I should be nineteen in February, and she thought me too young to marry. But dad joined with Everett, and declared that if we really wanted to be married, there was no use in waiting. He and mother had both been under twenty when they were married. And he said he didn't see but what they had got along all right.

"Yes, dear," mother's gentle voice replied, "but we were boy and girl together." But in spite of her objections it was settled that we were to be married on the tenth.

I was a little frightened, a little anxious, but also a bit eager for this unknown life opening before me.

To be continued.

AS HE SOWED, SO HE REAPS.

German bluff has failed as German war has failed. For months the German government has squirmed and dodged to avoid the punishment for the sins of militarism and treachery. It has tried to show that Germany and kaiserism had become as strangers—yet clumsily betrayed the fact that it listened as of old to the kaiser's small-est whisper. It has tried to make it appear that the land was racked with bolshevism, and would be worse racked if indemnities were imposed—yet at the same time blithely shooting the feeble bolshevists into kingdom come.

It has wheedled and whined, cursed and conspired, filled the world with propaganda and resorted to fraternization. But in the end it has had to pledge itself to come into court and receive the sentence which the conferences of the Allies had spent a half year in writing.

The failure of the German war has been no more conspicuous than the failure to gain a German peace. The Paris conference has re-enacted the law, as ancient as the hills, which commands that "whatsoever a man soweth, that shall he also reap."

A generation and a little more ago Germany won a war against France with spectacular credit to her arms, her standing as a power, her national policies and philosophy. She had no more than collected her enormous indemnities and withdrawn her soldiers than she began to dream of dominating all Europe, then Asia and Europe together, finally all the world of men. Deliberately she taught her children to love war not always as means to an end, but as a desirable state of mankind.

"I do not advise you to work," wrote Nietzsche, the spokesman of the militarists, "but to fight. I do not advise you to compromise and make peace, but to conquer. Let your labor be fighting and your peace victory. You say that a good cause hallows even war. I tell you that a good war hallows every cause." And an educational authority in East Prussia laid it down as a guidance to teachers: "The whole history of the world is neither more nor less than a preparation for a time when it shall please God to allow the affairs of the universe to be in German hands."

"We are of the race of the thunderer. We will possess the earth."

That is the old right of the Germans. To win land with the hammer."

It fell to the duty of the peace conference, not simply to arrange a treaty which should permit the world to go back to its beehives and plows, but also to root out the foul teachings of forty years—to smash the vile egotism of German supermanhood—to bring it home to every German man, woman and school child that a ruthless nationalism is as unforgivable as unscrupulousness and murder in an individual—to put the German policy of state in such position that it could never again impose misery upon millions of innocents, to establish a basis of punishment for crimes committed—to hand down the sentence—to see to it that the sentence was carried out to the last word and command.

It is directed that Germany shall restore Alsace-Lorraine to the rightful owners. Poland shall have her lands again. Part of Schleswig is to go back to the Danes and Belgium is to have a section of Rhenish Prussia. For the wreckage of French mines, Germany is to yield for a season the mines of the Saar river valley. Danzig is to be internationalized. Luxembourg ceases to be under the German thumb. Colonies in Africa, Asia and the South Seas are detached from Germany. The German navy is to be reduced to just enough for pageant purposes. Kiel canal will be open to world shipping. It is ordered that Heligoland shall be dismantled. Only such German munition factories may run as are licensed by the Allies. For every ton of shipping lawlessly destroyed by the submarine war a ton of German shipping must be given. A limitation is placed upon the erection of new fortifications. The number of soldiers is not to exceed two hundred thousand.

In the matter of indemnities, Ger-

many is to pay down five billion dollars within two years and further damages as they are fixed by an international tribunal.

Germans and their friends abroad weep and wail over these terrible terms. But not so those men and women and children who have lived in the terror of the German sword in the occupied areas. Not the handless little boys and girls of Belgium, not those soldiers who were marched through the city of Germany in order that German populations might spit upon them—not those prisoners who were starved and tortured in German camps—not the survivors from ships torpedoed in wintry seas—not those statesmen who must turn from peace making to the problem of saving for multitudes of widows and orphans—not one of the Christian men who love their race and have seen its advancement and its happiness checked by German lust and German ambition.

"Whatsoever a man soweth, that shall he also reap," the German sowed and so shall reap—and the law of God, visited upon kaiserism, remains unaltered and unwavering to warn whosoever in the future may dream to wear the crown of Caesar.

SOLDIERS ENABLED TO REINSTATE SELVES IN GOVT. INSURANCE

War Risk Bureau Shows How Boys Can Maintain the Benefits.

The establishment of the Bureau of War Insurance as a permanent institution for the benefit of soldiers, sailors, marines and army and navy nurses, is a monument of gratitude from Uncle Sam to those who served their country during the world war.

This statement was made by Ballard Dunn, assistant chief of the Insurance Division of the Bureau in his address at Aurora this week on "Why World War Veterans Should Hold On to Their War Risk Insurance."

The administrative expense of the Bureau is borne by the United States government, he said, in order to provide the lowest cost insurance for the men.

Insurance claims which the Bureau has been called upon to pay, are more than \$900,000,000. The amount of premiums received from all service men, and which were deducted from their pay approximately \$200,000,000 or less than one-quarter of the amount of insurance claims. The excess above premiums which resulted from war losses will be paid by the government.

Mr. Dunn summarized the provisions of the War Risk policy as follows:

The total permanent disability clause is granted without cost to the insured and it is free from all restrictions.

Government insurance does not charge its policy holders any overhead expense.

It contains an extremely liberal definition of disability.

It gives very substantial payments.

It contains no age restrictions.

It is unrestricted as to travel, residence or occupation.

Premiums paid in advance are refunded down to the month, in case of death.

The policy is non-taxable.

Unusually liberal cash, loan, paid up insurance and extended term insurance values are included.

It participates in dividends.

Reinstatement Privileges.

Reinstatement privileges on lapsed war risk insurance have been very liberally extended under a new Treasury Department ruling, said Mr. Dunn. Under this ruling, in the majority of cases, delinquent policy holders may reinstate their insurance without medical examination even though they are several months behind in premium payments.

Insurance lapsed or cancelled prior to discharge may be reinstated within the nine calendar months subsequent to the month of discharge, provided the insured is in good health as at the date of lapse or cancellation and so states in his application.

The following synopsis of the Treasury Department ruling was outlined by Mr. Dunn:

Where the insured has paid no premiums since discharge:

(a) If not discharged more than three months, the policy may be reinstated by simply sending in past due premiums, provided the insured is still living. No application for reinstatement or proof of good health is required.

(b) If discharged more than three months and less than nine months, insured must be in as good health as at date of discharge, and so state in his application for reinstatement when sending in premiums past due. No medical examination is required.

(c) If insured was discharged before January 1, 1919, the insurance may be reinstated at any time before September 30, 1919, on the same conditions as in paragraph (b) above; namely insured must be in as good health as at date of discharge and so state in his application for reinstatement when sending past due premiums. No medical examination is required.

Where the insured has paid the first premium due after he was discharged but has failed to pay some of the later ones:

(a) If less than three months behind in premium payments and insured is in as good health as when policy lapsed, and so states in his application he may reinstate without medical examination by sending in premiums past due.

(b) If more than three months behind and less than nine months, insured may reinstate, if in as good health as at the date when the insurance lapsed and so states in his application and submits therewith a satisfactory report to that effect to the Director of War Risk Insurance from a reputable physician, together with premiums past due.

Where the insured has been formally cancelled it may be reinstated on conditions similar to the above.

If the policy holder is unable to keep the full amount of war risk insurance he carried while in the service, he may reinstate part of it from \$1,000 up to \$10,000 in multiples of \$500. Reductions may be made in multiples of \$500 to any amount, but not less than \$1,000. Premiums are due on the first of the month, although payments may be made any time during the calendar month.

Some idea of the magnitude of the operations of the Bureau of War Risk Insurance was given by Mr. Dunn who said the government carried insurance of approximately \$40,000,000,000 upon the lives of the men in the service. To care for the 30,000,000 records in the Bureau, more than three miles of file cabinets, 4½ feet high are required. Considerably more than 4,000 typewriters are used to keep these records up to date.

Until very recently the Bureau's departments were housed in sixteen buildings in Washington, ranging from garages to the New National Museum. The executive and clerical force of the Bureau number 13,614 people.

TREATY SIGNING FORMALLY ENDS GREAT CONFLICT

Is Climax of 5 Months
of Conferences on
Peace Questions.

By Associated Press Leased Wire
Washington, June 28.—Signing at Versailles of the peace treaty with Germany, arranged for today, formally brings to a close the world's greatest war.

Although technical termination of the war will come to each nation only when the treaty is approved by the ratifying power of that nation to all intents and purposes the conflict, that began in August, 1914 will end when, in the historic hall of mirrors, the accredited peace commissioners of the allied and associated powers and of Germany's affix their signatures to the treaty. Likewise will be brought to an end the armistice granted Germany last November 11, and also the period of uncertainty and doubt as to the final outcome of the peace negotiations.

5 Other Treaties Pending
With the signing of the treaty the work of the peace conference proper is over. As concerns negotiations with Germany is brought to a conclusion after more than five months of conference. Portions of the treaty with Austria yet remain to be completed and negotiations with Turkey and Bulgaria still must be conducted, but as to Germany, chief of the enemy powers, only the carrying out through the long series of years of the provisions of the treaty will remain.

The ceremony planned for today at Versailles which, though simple, was expected to be one of the most impressive of its kind in history, also brings to an end the work of President Wilson in Paris as head of the American peace mission and in signing the treaty as such he becomes the first president of the United States to sign a treaty as a negotiator.

Wilson Finishes Task
With the departure from Paris tonight of President Wilson preparatory to sailing tomorrow from Brest on the George Washington the center of interest as regards the treaty shifts to the senate, ratification by which is necessary for actual termination of the war between this country and Germany. Due to opposition to the league of nations covenant—a part of the treaty—and to certain provisions of the treaty itself, the contest in the senate is expected to be long and bitter.

Tour of Nation Planned
Interest also after today will be more decidedly centered on the tour of the country by the president soon after he has laid the treaty before the senate. While the itinerary and other details have not been made known, it is understood the president will go west as far as the Pacific coast making addresses in support of the treaty and league of nations covenant.

As the signing of the treaty must be followed by formal ratification before commercial relations with Germany may be resumed, a spirit of rivalry among the entente allies to file notice of ratification with the French secretariat in Paris may be expected to develop. The first nation to resume relations with Germany, therefore, probably will be among those whose forms of government admit of speedy action such as Great Britain which may ratify the treaty through a mere order of the privy council.

Washington Receives Peace News Without Noisy Demonstration

By Associated Press Leased Wire

Washington, D. C., June 28.—Official Washington took the signing of the peace treaty calmly and quietly in marked contrast to the riotous demonstrations which greeted the announcement of the signing of the armistice.

Congress was wholly without demonstration. In the senate President Wilson's address to the American people was read by Senator Hitchcock, senior democrat of the foreign relations committee, but it passed without comment. The house was not in session at the moment, not assembling until noon. The marine band serenading congress on the capitol plaza was the only sign of celebration.

Diplomats keeping in close touch with the state department learned of the news as it ticked off the special wire to Versailles. Throughout the city there were no demonstrations whatever by the man in the street.

Although there was considerable comment on the president's address in private talk among senators, few made any expression for publication.

Senator Knox, republican, Pennsylvania, and a former secretary of state who opposes the league covenant, declined to talk.

Senator Hitchcock declared the address "a great announcement, an eloquent appeal and an inspiring prophecy for the future."

Senator Cummins, republican, Iowa, president pro tempore of the senate and many other senators also declined to comment.

The house received the president's address with more of a show of celebration than did the senate. Presented by democratic floor leader Clark, the address was read from the speaker's desk while the house stood and punctuated it with applause and cheers. Loud yells from the democratic side greeted the announcement of the signature "Woodrow Wilson."

BIG SHIPMENT OF WOOL AND HIDES

Snow & Wienman this week shipped their first car load of wool to a large manufacturer in Philadelphia and received a check for same, amounting to \$10,739.00. Farmers in this vicinity realize that they get higher prices from our local buyers than if they shipped out of town. They will have another car ready for shipment in a few weeks. During the fur season they shipped 2499 muskrat, 2000 skunk, 809 mink and 600 coon hides.

GREATEST WAR FORMALLY ENDS THIS AFTERNOON

(Continued from Page 1)

Protocol Also Signed.

The protocol was signed by all those who signed the treaty. The Rhine arrangement was signed by the Germans, Americans, Belgians, British and French plenipotentiaries.

All of the plenipotentiaries having signed the treaty, M. Clemenceau declared the session closed.

(This dispatch was not timed at Versailles. It was received in Washington at 11:20 a. m.)

Wilson Arrives at 2:50.

President Wilson entered the Hall of Mirrors at 2:50 o'clock. All the delegates were seated except the Chinese who did not attend. The Chinese delegates shortly before the hour set for signing reiterated their intention not to sign.

The peace treaty was deposited on the table in the hall of mirrors at 2:10 o'clock by William Martin of the French Foreign office. It was enclosed in a stamped leather case.

A few minutes before 3 o'clock the fifteen enlisted men from the American, British and French armies entered the hall and amid decorous cheers.

Great Crowd Cheers.

As Premier Clemenceau, President Wilson and Premier Lloyd George emerged from the palace the great crowd gathered outside swept aside the cordon of troops, cheering madly.

The three statesmen were swept along by the surging thousands. Many soldiers broke ranks and joined in the demonstration, while guns boomed and low flying airplanes seemed to fill the air.

Germans Leave First.

The German delegates left the hall first, the allied representatives remaining in their seats. Those who had assembled in the hall then went to the terrace to see the fountains playing.

Premiers Clemenceau and Lloyd George and President Wilson were photographed together on the terrace. After the demonstration the three allied leaders left Versailles in the same automobile, the crowds following and cheering.

JUNE 28 HISTORIC DAY IN BIG WAR

The world war came to a formal end five years after the assassination of Archduke Francis Ferdinand, and two years and two days after the first American troops landed in France. The Austrian heir-apparent was killed at Sarajevo, June 28, 1914. The first American contingent disembarked in France June 26, 1917.

On July 28, 1914 one month after the death of Francis Ferdinand, Austria declared war on Serbia, marking the beginning of hostilities. On August 1, Germany declared war on Russia and invaded Luxembourg. Germany sent her ultimatum to Belgium August 2, and declared war on France August 3. The next day Great Britain declared war on Germany.

June 28 also is the anniversary of the renewal of the triple alliance between Germany, Austria and Italy which has been broken by the war.

On June 28, 1890, the German Reichstag adopted a bill creating a new German army, the organization of which is greatly diminished in power by the treaty signed today.

In American history June 28 is the anniversary of the battle of Monmouth, N. J., where in 1775 Washington defeated a force under Sir Henry Clinton.

TREATY IS SIGNED IN PALACE WHERE GERMAN EMPIRE WAS FOUNDED

Downfall of Germany is
Recorded on Scene of
French Blow of '70.

By Associated Press Leased Wire

Versailles, June 28.—Germany's delegates of the allied and associated powers meet in Versailles today to sign the treaty formally ending the war between Germany and twenty-seven other nations.

The credentials of the new German delegates were approved by the peace conference authorities during the forenoon, and everything was virtually in readiness here at an early hour for the ceremony set for 3 o'clock in the afternoon. The morning had been a cloudy one, but shortly before midday the clouds began to break and the indications were that the afternoon of the momentous ceremony would be right and sunny.

Other Documents Signed.

Last minute changes were made in the program to expedite the signing of the treaty. Two additional tables were placed beside the one within the historic hall of mirrors on which the peace treaty was laid. One of the new tables held the Rhine convention and the other the protocol containing changes in and interpretations of the treaty. All these documents had to be signed by each plenipotentiary and arrangement of the tables thus enabled three persons to be engaged simultaneously in affixing their signatures.

Each Walked To Table.

Because of the size of the treaty and the fragile seals it bore, the plan to present it for signing to Premier Clemenceau, President Wilson and Premier Lloyd George seemed unlikely to be carried out, the new plan being for the three conference leaders to step to the table to affix their signatures.

Hours before the time set for the ceremony a seemingly stream of automobiles began moving up the camouflaged hill of the Champs Elysees, past the Arc De Triomphe and out through the shady Bois De Boulogne, carrying the plenipotentiaries, officials and guests to the ceremony. The thoroughfare was kept clear by pickets, dragons and mounted gendarmes.

Paris Was Crowded.

In the meantime thousands of Parisians were packing the regular and special trains upon the lines leading to Versailles and contending with the residents of the town itself for places in the park where the playing of the fountains of Versailles would mark the end of the ceremony.

The automobiles bearing delegates and secretaries had reserved for their use the avenue Du Paris, the broad boulevard leading direct to the chateau's court of honor, French soldiers being ranged along the highway on both sides. At the end of the court a guard of honor was drawn up to present arms as the leading plenipotentiaries passed, this guard comprising a company of republican guards in brilliant uniform. The entrance for the delegates was by the marble stairway to the "queen's apartments" and the hall of peace, giving access thence to the hall of mirrors. The walls of these apartments were hung with unique gobelin tapestries.

Many Privileged Guests.

The route to the peace table for the plenipotentiaries was through a space reserved for some 400 privileged guests who were instructed to be in their seats well in advance of the entry of the delegates. It had been arranged that the delegations instead of straggling in without order, as when the original terms of peace were communicated to the Germans, should enter by groups, each one being formally announced by ushers from the French foreign office.

This formality was not prescribed for the Germans, who were given a separate route of entry, coming through the park and gaining the marble stairway through the ground floor. There was thus avoidance of occasion for the guard of honor to render them military honors, these being reserved for the allied representatives. The dismounted guardsmen on the marble staircase and in the "queen's apartments," however, were instructed to remain in their places for the entry of the Germans.

72 Delegates Present.

Within the hall of mirrors where the historical furnishings and paintings gave a tone of impressive state which would otherwise have been rather lacking in the assemblage of soberly attired delegates, 72 chairs for the plenipotentiaries were drawn up around three sides of the table, which formed an open rectangle fully eighty feet in length on its longer side. A chair for M. Clemenceau, president of the peace conference was placed in the center of the long table facing the windows, with those for President Wilson and Premier Lloyd George on the right and left hand respectively.

The German delegates were assigned seats at the side of the table nearest the entrance which they could take after all the others had been seated.

This arrangement was made to per-

mit the Germans to leave after the signature of the treaty before the allied delegations, not waiting for the semi-state procession of allied delegates to the terrace from which to witness the playing of the Versailles fountains before returning to Paris.

CITY BRIEFS

Was the First Patient—Miss Mary Rourke, of Ohio, who has been receiving treatment in the hospital for several weeks, was removed to her home Friday afternoon. The young lady has the distinction of being the first patient to be removed in the new auto ambulance belonging to Walter L. Preston.

Woman Taken Home—Miss Grace Rosier, of Amboy, one of the women who was injured in the automobile accident Thursday afternoon just south of the city limits on the Chicago road, was removed to her home Friday in an ambulance.

To Attend Banquet—State's Attorney Harry Edwards and County Judge J. B. Crabtree went to Chicago this morning where they will attend a banquet this evening given by one of the fraternities of the University of Wisconsin of which they were members.

To Automobile School—Clyde E. Holloway has gone to Kansas City where he will enroll as a student in the Rahr Automobile & Tractor school.

Three Were Fined—Fear of the rapidly approaching death of John Barleycorn, led to the arrest of three Dixon residents who sought seats among the mourners on charges of drunkenness Friday night. This morning Justice George Hill presided in police court and fined Michael Tague and Tom Tyler, \$5 and costs each for being intoxicated. Robert Walker was assessed a fine of \$5 and costs for the same offense.

Council Had Meeting—A special meeting of the city council was called this morning at 10 o'clock for the purpose of passing an ordinance advertising for bids on the west end sewer local improvement. The sewer is to extend west from College avenue on First street to the railroad tracks.

Commissioner Is Home—Commissioner John J. Armstrong returned home Friday from Terry, Mont., where he spent several days on business. Mr. Armstrong reports that on last Sunday, the thermometer registered 112 in the shade at Terry.

Aged Lady Had Fall—Mrs. Mary Lawrence, who makes her home with her son, Ellis Mason, 214 Chamberlain street, this morning suffered a very painful accident. The aged lady was in the act of descending a flight of stairs when she slipped and fell, dislocating the right hip and elbow. A physician was summoned and ordered her removed to the hospital. The Preston auto ambulance was used.

Rendered Decision—Justice Grover Gehant today rendered a decision in the case of the City of Dixon against Thomas and Michael Drew in which he fined the former \$3 and costs and the latter \$25 and costs on charges of disorderly conduct. The case was heard in police court the early part of the week and taken under advisement until today. The fine against Thomas Drew was held in advance pending his further behavior. It is believed that the son, Michael Drew will take an appeal through his attorney, John E. Erwin to the county court.

Peace Brings Some Flurry in Stocks

By Associated Press Leased Wire

New York, June 28.—Announcement of the signing of the peace treaty had little perceptible effect in the stock market here today except a manifestation of increased strength. Prices among leaders, especially the so-called peace industrials, had already scored gains of 1 to 4 points in anticipation of the news.

In financial circles generally the announcement was received with quiet satisfaction, but without comment.

DIXON DOCTOR WILL ATTEND CONVENTION

Dr. McNicol will leave Sunday morning to attend a four day session of the annual convention of the American Osteopathic association, which will be held at the Hotel Sherman, Chicago, starting Monday, June 30th, and will spend Sunday with his younger brother south of Chicago, who is one of the division superintendents on Caiman canal construction out of Chicago. These national conventions are crowded with the best of the profession and become a sort of a short post graduate course to those who attend. The program proper will be held at the hotel. The surgical operations, ear, nose and throat work and the finger surgery that has been so successful of late years in the treatment of hay fever will take place at the new Chicago hospital, 5200 Ellis avenue, and will be in charge largely of surgeons from the various osteopathic colleges.

be signed only by the delegates of the great powers.

China Will Not Sign.

Even the full number of 72 may not sign the treaty, since the Chinese have indicated that they are opposed to signing the instrument on account of the Shanghai settlement.

Arrangements were made by the French authorities to keep the hour of the arrival of the German plenipotentiaries and officials secret, it being desired to keep it from the public so that the possibility of a repetition of the unpleasant incidents attending the departure of the old delegation from Versailles might be avoided.

The credentials of the new German delegates will be verified early in the morning.

Antique Table for Signing.

The tables for the secretaries which threatened to interfere with the view of the invited guests and newspaper men have been placed inside of the table for the plenipotentiaries. The tables and chairs reserved for secretaries and other officials about 100 in number encroach considerably on the space reserved for the table upon which the treaty will repose while the signing is going on. This table is a leather covered antique of the regency period with bronze ornamentation.

America Signs First.

According to the program of the session, the treaty will be carried to Premier Clemenceau, President Wilson and Premier Lloyd George by William Martin, official master of ceremonies and attache of the French foreign office. It will then be replaced on the table to be signed by the other plenipotentiaries in the alphabetical order of their countries, America signing first and Germany last.

floors. The electric light bulbs had been taken from their sockets and broken on the floors.

Tender Age Considered

Chairman Dixon talked to each of the boys, each one telling of his part in the destruction of the school property. The fact that the boys are all of a tender age is the only thing that prevented their being arrested and dealt with by law.

After hearing the stories and giving the offenders a lecture in the presence of their parents, it was decided that they should put the building back into the shape it was found. Every boy was ordered to report at the school on Monday morning promptly at 8 o'clock and under the supervision of Mr. Monahan they will repair the damage done and clean up the entire building. This work will require several days but the boys and their parents consented to such an agreement.

A collection of oriental oddities that is valued at several hundred dollars, and which was donated to the school by George C. Loveland, was thoroughly ransacked, but fortunately none of the articles are missing. Mr. Dixon in closing his lecture to the youthful vandals, warned them and their parents that a repetition of such an act would not be handled by the board of education but would be turned over to the state's attorney and sheriff of the county and the offenders would be prosecuted.

"WHO CALLED ME 'CENTRAL'?"

Is a question we do not aim to be able to answer.

WE ARE CONCERNED in answering you promptly and giving you good service but we are not going to concern ourselves about the particular number you call, that's your business.

You control the ringing of the telephone bell of the party you are calling, it rings 12 times per minute or every 5 seconds.

Give your party time to answer, but on the other hand if you are slow in answering and the ringing stops before you answer, the call is a lost one, we cannot help you.

SAVE THE CHILDREN

The mothers of the Twentieth century will go down into history as being true patriots. They have tearfully, ungrudgingly and bravely given of their own flesh and blood that true Democracy might prevail throughout the world and that the strong arm of Imperialism should be shattered once and for all. When this war is won it will be said, in more ways than one, that it was won by the Mothers of the country.

But you mothers, who have sent your dear boys "over there" to fight for world-wide liberty, also have a duty to perform with reference to the babes in your arms and your sons and daughters of tender age. Do you know that not very long ago, at the Y. M. C. A. at Kansas City fifteen hundred boys were examined and fifty per cent of them were found to have some form of spinal trouble? If those boys had been examined by a competent Chiropractor when they were yet infants, these faults could have been corrected.

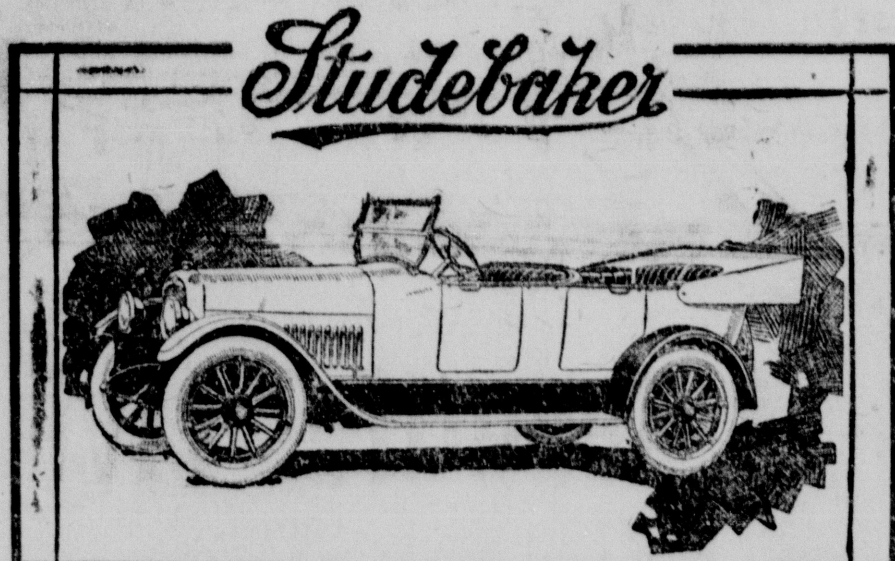

If your little baby is sick, weak, puny or not properly developed in some part of the body there must be a Cause and nine times out of ten it is found in the spine. Do not wait with the expectation that the baby will outlive the weakness; have the spine palpated and if necessary adjusted. Many a boy, many a girl has gone to a premature grave or lingered through life a miserable cripple when a Spinal Analysis made in infancy would have detected some weakness which Chiropractic Adjustments would have corrected.

Nature is the only true Healer. Spinal Adjustments eliminate the cause of the trouble and Mother Nature heals. You say, "Oh, yes, that's a beautiful theory, but like all other beautiful theories, it's too good to be true." It is not only a beautiful theory, but it is beautifully true, as the thousands of men and women who have been helped will attest any day.

"Save the Children." The children of today will be the men and women of tomorrow. You can do this by safeguarding their health while they are still in your arms.

TEACHER'S LAW AMENDED.

It will be of interest to prospective teachers to note that the last General Assembly of Illinois amended the teachers' certifying Act, making it now mandatory that an applicant for a second grade certificate must have completed at least the ninth and tenth grades of work in a recognized High School, or present eight units of equivalent High School credit, and be at least seventeen years of age, to be admitted to the teachers' examination in July, 1919, or thereafter.

After July 1, 1919, third grade certificates will not be issued, as the revised law discontinues this form, except those already in force having a renewable possibility of one year. After next year, issuance or renewals of third grade certificates will no longer be possible. Provisional and Emergency certificates were not disturbed in the amendatory process.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flush any time.

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

CORN UNAFFECTED BY PEACE SIGNING

Chicago, June 28.—Actual signing of the peace treaty failed outright today to influence the corn market. Instead, prices today were ruled by the necessity of month-end liquidation on the part of holders of July contracts. This liquidation had a depressing effect on the market as a whole, the treaty signing having been anticipated long before hand. Opening prices, which varied from 1/4¢ off to 1/4¢ advance, with Sept. 1.75 1/2, were followed by a slight general upturn and then by a setback all around to well below yesterday's finish. Oats were dull and weak with corn. After opening unchanged to 1/4¢ lower, including Sept. at 68 1/2 to 69¢, the market hardened a trifle and then turned sharply down grade. Provisions held steady. Higher quotations on hogs together with assertions that export trade would be enlarged were against any decline. In the last part of the session, rallies took place as a result of covering of shorts. The market closed unsettled, 1/4¢ net lower to 1/4¢ advance, with September 1.75 1/2 to 1.76 1/4 and Dec. 1.53 1/2 to 1.54 1/4.

Stocks Were Firm to Strong on Exchange

By Associated Press Leased Wire New York, June 28.—Stocks were firm to strong at the opening of today's short session, the list, excepting rails, making further upward progress on news of the peace treaty. Selling for profits and intimations of further differences with Mexico regarding foreign owned oil concessions reduced some of the more important gains later. Trading concentrated to an unusual extent in industrials of the various peace groups, notably rubbers, textile, food, motor, leather and paper issues, copers also adding to recent advances. The closing was strong. Sales approximately 650,000 shares.
